For qualified investments that you made directly in a certified business during the 2008 tax year, the credit is equal to 30%

of the total amount invested, of which no more than \$50,000 may be used on your 2008 return or any carryover year's return. The portion of the credit allowed for your 2008 investments that you are unable to use on your 2008 return may be carried over and used on subsequent years' returns for up to 10 tax years.

**Credit from passthrough entity.** Include on this line an agricultural commodity investment tax credit from a North Dakota Schedule K-1. **Line 10 - Research expense credit**

A tax credit is allowed for conducting qualified research in North Dakota. The credit is allowed on qualified research expenses that exceed base period research expenses. These terms have the same meaning as those defined under I.R.C. § 41, but only to the extent they were incurred within North Dakota. For the 2008 tax year, the tax credit is calculated by subtracting the North Dakota base period research expenses from North Dakota qualified research expenses and applying the following rates to the result:

- 25% of the first \$100,000; and
- 20% of the amount over \$100,000.

**Tax planning note:** *The 25% credit rate applies to the first \$100,000 of excess expenses in all tax years. However, the 20% credit rate for excess expenses over \$100,000 applies to the 2007 through 2016 tax years, and changes to 8% after the 2016 tax year, only if qualified research is first conducted within North Dakota in the 2007, 2008, 2009, or 2010 tax year. If qualified research is first conducted within North Dakota after the 2010 tax year, the credit for excess expenses over \$100,000 is 8%.*

If you are unable to use all of the credit on your 2008 return, you may carry the unused credit back to the previous 3 tax years and forward to the subsequent 15 tax years. You must carry the credit back to the earliest tax year first, then to each succeeding tax year until it is used up.

**Election to sell, assign, or transfer unused credit.** If you have an unused research credit and you obtain certification as a “qualified research and development company,” you may elect to sell, assign, or transfer the unused credit to another taxpayer. For the conditions and procedures, including the reporting requirements, see N.D.C.C. § 57-38-30.5. Application for certification must be
